EXPERIENCE

Software Engineer Intern

@LiveStack.video

JUL 2020 - AUG 2020 // San Francisco, CA

- Refactored create event form from a single page **Bootstrap** modal to a multi-step/page form using **Formik** with **React**
- Created new **React** components to display a warning message on all pages for users with unverified emails
- Scraped Instagram and/or Twitter for event hosts' first/last names to include in event listings
- Updated backend code to allow storing event hosts' full names in the database using **Node.js** and **Express.js**
- Wrote and implemented middleware on the backend to protect routes from unverified users
- Wrote and fixed unit and integration tests for users with verified emails

Operations Specialist Level III

@Square (Payroll Product)

OCT 2017 - MAY 2020 // San Francisco, CA

OTHER POSITIONS HELD: *Operations Specialist Level II*

- Grew revenue by \$30k by driving new product feature from start to finish that allowed customers to pay extra to have Square Payroll file amended tax returns on their behalf
- Worked cross-functionally with Square's internal tax and legal teams to ensure new product feature was built to meet all legal requirements and abide by company policies
- Wrote **SQL** queries to pull metrics for weekly/quarterly reporting to help make informed decisions to increase team productivity and better customer experience

Sr Contracting Associate

@InstaMed Communications

JUN 2014 - SEP 2017 // Philadelphia, PA

OTHER POSITIONS HELD: *Contracting Associate, Service Associate*

- Created contracts in SalesForce to track enrollment, onboarding, and renewals in collaboration with Sales and Implementation teams
- Developed and maintained working relationships with partner banks and insurance payers/trading partners
